How to read this report

- **Research date:** 5 November 2026. Every deadline below was checked on this date. Deadlines move, so check each one again on the official page before you submit.
- **Verification labels:**
  - **OFFICIAL** means confirmed from a government, university or scholarship-body source (domain shown).
  - **SECONDARY** means it comes from aggregator or news sites and has not yet been confirmed officially.
  - **UNVERIFIED** means there is no reliable source yet. Do not rely on it.
- **Network limitation:** this research session could not open several official sites directly (si.se, chevening.org, stipendiumhungaricum.hu). Facts from those sites came from search results restricted to their official domains. Each fact is labelled OFFICIAL only where the official page itself was the source.
- **Matching score:** a weighted strategic score from 0 to 100 (see Section C). It is **not** a statistical probability of admission.
- **Sources:** full URLs are in Section I and in the tracker's *Research Sources* sheet.

Overall competitiveness (honest assessment)

Moderate for practice-oriented, experience-valuing scholarships. Low for grade-driven, elite awards.

Your profile has two sides:

- **Academic side (weak):** a 2.62 CGPA is below the "upper second" or "top third" level that most elite and government merit scholarships use. The transcript also shows failed first attempts in two mathematics courses.
- **Professional side (genuinely strong):** about 4 years of post-degree work in fintech DevOps, cloud and IT operations, with security tooling, in a field that matches every programme you want. This is exactly what scholarships for working professionals reward, such as Sweden's SI Scholarship for Global Professionals, CMU-Africa and Mastercard Foundation, and Chevening and Fulbright in future cycles.

The strategy is to **lead with professional impact and an upward academic trend**, and to target awards whose eligibility rules you clearly meet.

Most important strengths

1. **Directly relevant work experience** (about 4 years from August 2022 if SantimPay is continuous). It clears every minimum found:
   - SI: 3,000 hours
   - Chevening: 2,800 hours
   - DAAD EPOS: 2 years
2. **Strong upward academic trend.** Final-year semester averages were **3.05 and 3.35**. Over roughly the final 100 credits the average is **about 3.08** (my arithmetic from the transcript's cumulative totals; unofficial). Strong grades include:
   - Final Project I and II: A−
   - Compiler Design: A−
   - Complexity Theory: A−
   - Advanced Programming: A−
   - Selected Topics: A
3. **The Ethiopian bachelor's degree meets Sweden's English requirement.** Sweden does not need IELTS (OFFICIAL: universityadmissions.se).
4. **Current, in-demand skills** (Kubernetes, CI/CD, observability, IAM, security controls). These fit cloud, DevOps and cybersecurity master's programmes.
5. **Development-impact story:** digital payments and fintech infrastructure in Ethiopia, which links directly to financial inclusion.

Most important weaknesses and risks

1. **CGPA 2.62.** It is also **0.02 below the Korean GKS cut-off of 2.64**. If 2.67 is official, it passes. This single difference changes eligibility.
2. **Inconsistent CV versions (critical).** Different titles, dates and employers appear across your CVs, and identical bullet points are attributed to two different employers.

Committees and visa officers compare documents, so this must be fixed **before any application**.

3. **No English test score yet.** Most targets outside Sweden need one, and the spoken English self-rating is B1.
4. **Mathematics record.** Probability & Statistics and Discrete Mathematics were failed on first attempt and later passed (C range / D). This is a risk for AI, data science and machine learning programmes, so cloud, security and software engineering programmes are the better fit.
5. **The existing recommendation letter overstates performance.** It calls you "high-performing" in courses graded C+ and C, and contains a template error. It needs replacing.
6. **Timing.** Several 2027 cycles (Chevening, Mastercard Foundation at UBC, McGill and Edinburgh, Fulbright 2027–28, Manchester) **closed before today**.

A3. Document discrepancies you must resolve (from your own files)

#	Field	Europass CV (Aug 2026)	Older resume(s)	Transcript / certificate

12	Certifications	"Certified Kubernetes Administrator, issued July 2022, expires July 2025"	not listed	Needs a verification ID. Mark as expired

Rule going forward: each employer, title and date must appear **identically** in every application, and must be supported by an employer experience letter. I will build one *verified employment history* (00_MASTER_PROFILE) once you confirm the facts. I will not choose between conflicting versions for you.

B. GPA and academic assessment

B1. GPA analysis

- **Transcript figure:** final cumulative average **2.62 / 4.00**. The cumulative totals (627.75 points / 240 credits) independently give 2.6156. Two failed courses were later replaced: 245 credits were attempted and 240 counted.
- **You reported 2.67.** I found no document showing 2.67.
  - If your **printed diploma** or a later official record shows 2.67, upload it and the official document will govern.
  - Otherwise, applications must use **2.62**. Universities verify against the transcript.
- **Trajectory (from transcript semester averages):**
  - Early years mostly 2.2–2.7
  - Year 4, semester 1: 1.25 (the failed mathematics attempts)
  - Final year: **3.05 → 3.35**
- **Approximate GPA over the final ~100 credits: about 3.08 / 4.00.** This is *my unofficial calculation* from cumulative totals. The university or an evaluator must confirm it. It matters for universities that assess the **last two years** (for example the University of Manitoba, which uses the most recent two years for non-North-American transcripts; OFFICIAL).
- **Course-level strengths for cloud, security and systems programmes:**
  - Final Project I & II: A–
  - Compiler Design: A–
  - Complexity Theory: A–
  - Advanced Programming: A–
  - Selected Topics in CS: A
  - Intro to AI: B
  - Computer Security: B
  - Intro to Distributed Systems: B–
  - Network & System Administration: B–
  - Internet Programming: B–
- **Course-level weaknesses:**
  - Probability & Statistics: Fx, then F, then passed
  - Discrete Mathematics: Fx, then D
  - Linear Algebra: C–
  - Data Structures & Algorithms: C

B2. Ethiopian qualification considerations

- **Recognition:** Debre Tabor University is a public Ethiopian university.
  - Sweden requires the programme to be accredited by the **FDRE Education and Training Authority (ETA, formerly HERQA)** at the time of study (OFFICIAL: universityadmissions.se).

  - Germany relies on the **anabin** database / uni-assist evaluation. Debre Tabor's anabin status is **UNVERIFIED** (anabin could not be reached in this session) and must be checked.
- **Extension (part-time) programme:** this is the same BSc degree, but some evaluators ask about it. Keep a registrar letter confirming the degree is identical to the regular programme, in case one is requested.
- **Credits:** 240 Ethiopian credit hours over 5 years. Erasmus Mundus programmes typically ask for a bachelor's of at least 180 ECTS. Ethiopian 4-year BSc degrees are normally treated as equivalent, but **confirm with each consortium**.
- **Authentication:** many programmes and visa offices ask for degree documents authenticated by the Ethiopian Ministry of Education and the Ministry of Foreign Affairs. This is a common requirement; confirm it per programme.
- **Grade conversion:**
  - **Germany:** uses the official KMK "modified Bavarian formula": German grade = 1 + 3 × (Nmax − Nd) / (Nmax − Nmin). The result depends on the minimum passing grade (Nmin) that uni-assist or anabin assigns to Ethiopian degrees, which is **UNVERIFIED**. *Illustration only, not an official conversion:* with Nmin = 1.0 the result would be about 2.4; with Nmin = 2.0 it would be about 3.1. Only uni-assist's evaluation counts.
  - **Korea (GKS):** uses the transcript CGPA directly on its 4.0 scale. The cut-off is 2.64 (OFFICIAL embassy notices, 2026 cycle). No conversion is needed, so 2.62 vs 2.67 is decisive.
  - **Türkiye Burslari:** requires 75% for master's (SECONDARY). Their conversion method for a 4.0 scale is **UNVERIFIED**.

B3. Academic eligibility risks by scholarship type

Category	Typical academic rule	Your status
SI Scholarship for Global Professionals (Sweden)	No national GPA minimum; universities rank on merit	**Eligible**; competitiveness moderate
CMU-Africa + Mastercard Foundation	"No cut-offs exist for GPA"; most admits ≥ 3.0 (OFFICIAL)	**Eligible**; below the typical profile, so essays and tests matter
Erasmus Mundus Joint Masters	Set per consortium; GPA usually weighted heavily	**Potentially eligible**; competitiveness low to moderate
Stipendium Hungaricum	University entrance exam or interview; Szeged scores core-course grades (50/100)	**Potentially eligible**; good feasibility
Chinese Government Scholarship	University-specific	**Potentially eligible** (needs university confirmation)
Korea GKS-G	CGPA ≥ 2.64/4.0 **or** top 20% of class (OFFICIAL)	**Ineligible at 2.62 / eligible at 2.67.** A class-rank letter is the alternative route
DAAD EPOS (Germany)	"Far above average results	**Likely ineligible** unless a

Category	Typical academic rule	Your status
	(upper third)"; degree normally ≤ 6 years old (OFFICIAL: DAAD)	rank letter shows upper third
Chevening (UK)	Needs an unconditional offer from a UK university; universities set the grade	Eligible in principle for **2028/29** (2027/28 closed)
Canadian thesis MSc (e.g. Manitoba)	3.0/4.5 over the last two years (OFFICIAL)	**Eligibility requires university confirmation** (your last-two-years GPA may qualify)

B4. Recommended academic strategy

1. **Settle the official CGPA** (2.62 vs 2.67) and request a **class-rank or percentile letter** from the registrar. It opens GKS (top 20%) and possibly EPOS (upper third) only if the rank genuinely supports it.
2. **Request a registrar-certified "last two years" GPA statement** if the university will issue one.
3. **Address the GPA once, briefly and factually** (in an optional statement where the application allows one). Mention the extension study mode alongside full-time work from 2022, the mathematics repeats, and the clear upward trend. No excuses or invented hardship.
4. **Offset with verifiable evidence:**
   - A refreshed, **in-date cloud or Kubernetes certification** with a verification ID (for example re-certifying CKA, or AWS/Azure associate level)
   - A public **GitHub portfolio** (CI/CD pipelines, Ansible roles, Kubernetes manifests, monitoring dashboards), with any employer-confidential material removed
5. **Prefer systems, cloud, security and software-engineering programmes** over math-heavy AI/ML programmes. Your transcript is strongest there.

C4. Priority C: low potential or ineligible (with reasons)

Opportunity	Reason
DAAD EPOS (Germany)	Requires "far above average (upper third)" results (OFFICIAL). No computer science or IT course confirmed on the 2027/28 list (OFFICIAL list snippets show HfT Stuttgart *Photogrammetry & Geoinformatics* as the nearest)
Mastercard Foundation at Univ. of Edinburgh	2027/28 required attendance at an information session (15–24 Sep 2026) and covers no computer science programme (OFFICIAL)
Mastercard Foundation at Univ. of Toronto	2026/27 restricted to graduates of Africa Health Collaborative partner institutions (OFFICIAL PDF). Debre Tabor University's partner status is unverified and unlikely
Commonwealth Shared / Commonwealth Master's	Ethiopia is not a Commonwealth country
Knight-Hennessy, Oxford/Cambridge full awards	Extremely grade-selective; 2.62 is not competitive. 2027 cycles not re-verified this session
Heinrich Böll / Konrad Adenauer (Germany)	Require above-average grades and existing German admission or enrolment. **Criteria not re-verified this session**

C5. Research queue (Phase 2b, not yet verified, so not ranked)

- Australia Awards Africa
- AIMS African Master's in Machine Intelligence (2027 dates not found; fully funded)

- Japan MEXT (GPA formula likely unfavourable; 2027 embassy round likely closed)
- KAUST
- Finland university scholarships
- Netherlands
- Belgium VLIR-UOS
- Italian MAECI scholarships
- New Zealand Manaaki
- Singapore

D. Country comparison

Country	Fully funded routes that fit you	2027 outlook	Verdict

USA	Fulbright (closed for 2027); assistantships rare at master's level	Weak for 2027. Ethiopia is **not** on the list of countries restricted by Proclamation 10998 (effective 1 Jan 2026), per the White House text as summarised (OFFICIAL); re-check before any application	**2028 via Fulbright**
Canada	Mastercard Foundation (closed for 2027); funded thesis MSc (Manitoba and others)	Master's students at public universities **no longer need a provincial attestation letter** from 1 Jan 2026 (OFFICIAL: IRCC). F. Document checklist

Already available (found in your Google Drive)

- Temporary Certificate of Graduation and Student Academic Record (transcript), Debre Tabor University. **Generated 15 Jul 2022; it says "official only when signed and sealed".**
- Europass CV (latest, 7 Aug 2026), plus several older resumes (with conflicts: see A3)
- Recommendation letter from Kasahun Abdisa (MSc), Lecturer, SITE, DTU, dated 4 Nov 2024. **Not recommended for reuse** (overstates grades, template error, generic addressee)
- Passport folder exists in Drive. **I did not open it** (sensitive). Only the name spelling and expiry date are needed now.

Still required

- ☐ **Permanent (printed) degree diploma.** The certificate says it was issued "pending the printing" of the diploma.
- ☐ **Official, sealed or authenticated transcript.** Check each programme's format (certified copy, MoE/MoFA authentication, or sealed envelope).
- ☐ **Registrar class-rank / percentile letter** (for GKS and EPOS) and, if possible, a last-two-years GPA statement
- ☐ **Employer experience letters** (letterhead, signed, stamped): title, exact dates, full- or part-time status, main duties. One each from SantimPay, Kifiya and any other employer you will list.
- ☐ **English test:** DET (by early December) and/or IELTS Academic
- ☐ **Passport bio page** (validity must cover the whole study period, ideally beyond 2029)
- ☐ **Three new recommendation letters:** 1–2 academic (ideally final-project supervisor and an A-grade course lecturer) and 1–2 professional (current line manager; Kifiya supervisor)
- ☐ **Certification evidence** with verification IDs (CKA, Azure Fundamentals, Fortinet NSE). Mark expired ones as expired.
- ☐ **Portfolio:** GitHub repositories and personal website (nebiyu.dev.et per older CV), cleaned of employer-confidential data
- ☐ Programme-specific items: medical certificate (Hungary), CSC physical examination form, police clearance (some visas)

Requires verification

- CGPA 2.67 vs 2.62
- Study start date
- All employment titles and dates
- CKA validity and issue date
- Plan International and Yandex roles
- Debre Tabor University anabin status (Germany)
- ETA accreditation of the programme for your study years (Sweden)

G. Missing information: essential questions only

1. **CGPA:** does any official document (printed diploma, newer transcript) show **2.67**? If not, should we proceed with **2.62**?
2. **Passport:** the exact name spelling and the **expiry date** only. Please do not send the passport number.
3. **Employment truth table.** For each role, give:
   - employer, exact title, start and end dates (dd/mm/yyyy)
   - full-time or part-time
   - whether you can get an experience letter

   Please specifically explain:
   - the SantimPay and Kifiya overlap
   - the Plan International Ethiopia role (whose bullets duplicate the SantimPay bullets)
   - Yandex
   - which job title at SantimPay is current (DevOps Engineer or Technical POS Manager)
4. **Leadership evidence:** have you led a team, project or rollout? How many people? Any community, volunteer or training work beyond the Dereja co-trainer role?
5. **Class rank:** can the registrar state your rank or percentile in the cohort?
6. **English:** any previous test? Can you sit a Duolingo English Test in the next 3 weeks?
7. **Destinations:** are Rwanda (CMU-Africa), Hungary, China and Korea acceptable? Are you willing to accept **return-home commitments** (Mastercard Foundation, Chevening, Fulbright)?
8. **Recommenders:** names and titles of 2 academic and 2 professional referees who know your work.
9. **Budget:** roughly how much can you spend on tests, application fees and courier/authentication over the next 3 months?

H. Next actions

Upload to Google Drive (or tell me where they are)

1. Printed degree diploma (if issued) and any newer official transcript
2. Employer experience letters (or tell me which ones you can request)
3. Certification certificates and IDs
4. A redacted passport bio page (name and expiry visible; number masked). **Only when we reach the application stage.**

What I will prepare next (Phase 3–5)

1. **Verified master applicant profile and employment history** (after your answers)
2. **International master CV** (2-page academic/professional) in DOCX and PDF
3. **Master statement of purpose**, then the **CMU-Africa essay set** (3 × ≤ 300 words) as the first customised package (earliest deadline)
4. **Recommender briefing packs** (facts recommenders may use, so letters stay accurate)
5. **Duolingo English Test / IELTS 4-week plan** (already outlined in the tracker)
6. After 13 Nov: **Swedish programme selection** from the official SI list, plus SI-specific documents

Next execution phase

Phase 3, Academic Eligibility Confirmation, starts as soon as you answer Section G, in parallel with **Phase 5** document drafting for CMU-Africa.

Current risks

1. CV inconsistency (credibility)
2. The CGPA cut-off issue (GKS)
3. No English score yet
4. A compressed timeline (5 key deadlines in 10 weeks)
5. Several official sites must be re-checked directly before submission (network limits in this session)
