Fully Funded Options in Germany, USA, Canada and the UK: Honest Assessment for the 2027 Intake

Checked 8 Nov 2026. E1 = official page read; E2 = official page found by search; E3 = secondary

Bottom line:

- For a **September 2027 start**, none of these four countries has an open, fully funded master's scholarship whose published rules you clearly meet.
- The realistic routes are **Chevening (UK) and Fulbright (USA) in the next cycle (2028 start)**, and **partial funding in Canada** if a professor agrees to supervise you.
- Nothing below is invented. Where a rule is not met, it says so.

Country	Opportunity	Funding	Published rules vs you	2027 intake?	Next step	Evidence
UK	**Chevening**	Full (tuition, stipend, flights, visa) for a 1-year master's	Requires **≥ 2 years' work experience after the bachelor's**: your 3½ years would qualify once the HR letters prove it. Also requires an offer from a UK university, so check that each course accepts a 2.62/4.00	**Closed** (2027/28 window was 4 Aug – 6 Oct 2026)	Prepare for the **2028/29 window, expected Aug–Oct 2027**: 3 UK course choices, essays, references	E1 (gov.uk)
UK	Commonwealth Scholarships	Full	**Ethiopia is not a Commonwealth country**: not eligible	–	None	E1/E2
UK	GREAT / university awards	Partial	Partial tuition only	–	Not recommended (not fully funded)	E3
USA	**Fulbright Foreign Student Program (Ethiopia)**	Full	Run by the US Embassy in Addis (its page blocks automated access). English test and a strong academic/professional profile required	Not for 2027	Check the US Embassy Addis Fulbright announcement (usually early in the year, for study starting the following year): 2028	E2/E3
USA	University assistantships (TA/RA)	Variable	Most master's assistantships are competitive and expect a GPA ≥ 3.0	Low probability	Not recommended	E3

Country	Opportunity	Funding	Published rules vs you	2027 intake?	Next step	Evidence
Canada	**Manitoba MSc (thesis)**	Partial: **minimum $20,000/yr** for admitted MSc students	Needs a supervisor **before applying**; your last-two-years average (2.98) is borderline	Deadline 1 Dec 2026	Only if a professor agrees now	E1
Canada	Calgary MSc (thesis)	Partial (awards/assistantships)	A professor must agree to supervise; GPA is assessed	Early review 15 Jan 2027	Optional	E1
Canada	Mastercard Foundation at UBC / McGill	Full	Graduate admission minimums at or above 3.0	Not realistic	None	E2
Germany	**DAAD EPOS** (development-related master's)	Full	Requires **an above-average degree (upper third of your class)**, ≥ 2 years' work experience, degree ≤ 6 years old. Most course deadlines for 2027 were **Aug–Oct 2026**; no ICT course was confirmed; Ethiopia's eligibility for 2027/28 is unverified (DAAD pages block automated access)	Mostly closed	**Ask DTU for a class-rank letter.** If you are in the upper third, EPOS becomes a real 2028 option	E2/E3
Germany	Political-foundation scholarships (e.g. Heinrich Böll, Friedrich Ebert, Konrad Adenauer)	Full	Usually require admission to a German university first and above-average grades	Not realistic for 2027	Revisit after admission to a tuition-free German master's	E3
Germany	Tuition-free public universities	Self-funded (blocked account ≈ living costs)	–	–	Not fully funded	E3

What would change this picture:

1. A **class-rank letter** showing the upper third (opens DAAD EPOS for 2028).
2. **HR letters** proving 2+ years of post-degree work (Chevening 2028/29).
3. A **professor's agreement** in Canada (Manitoba/Calgary, partial funding).
