3. Written and recorded responses (drafts to use if the age rule allows)

Motivational video (≤ 59 seconds). About 130 words:

> I'm [name], a Computer Science graduate from Ethiopia. For [3½] years I have kept digital-payment systems running for merchants and banks in Addis Ababa. Italy's engineering universities combine strong computer engineering with close links to industry. In the MSc in [Computer Engineering] at [university] I want to learn to design secure, reliable networked systems, then bring that knowledge back to Ethiopia's fast-growing digital economy, and build lasting links between Italian and Ethiopian technology companies. Thank you.

One-page CV: a shortened `06_FINAL_CV/CV_Europe_Academic`.
